

PROTECH 2024

**What's new in
PROTECH 2024?**

Kick-off Meeting, Valladolid

We are pleased to welcome you to the first edition of the **PROTECH** newsletter (**Preventive appROaches To the conservation of Europe's Cultural Heritage**).

PROTECH is co-funded by the **European Union** through the **Interreg Europe programme** and aims to improve regional policies for the **protection** and **conservation** of **cultural heritage** across Europe.

PROTECH 2024

The project promotes **preventive**, data-driven approaches by leveraging **emerging technologies**, including Artificial Intelligence and advanced data management systems. Its objective is to help public authorities **anticipate risks, reduce damage, and strengthen the resilience and sustainability of cultural heritage assets.**

PROTECH 2024

Key activities included:

- **Collaborative workshops**
- Partners shared experiences and discussed regional challenges related to cultural heritage conservation.
- The partnership visited key heritage sites, including the Monasterio de Santa María de Valbuena and the Museo Nacional de Escultura, to explore concrete examples of heritage management and preservation.

Stay tuned

Stay tuned for our next newsletter, where we will continue sharing updates, insights and good practices from the PROTECH project.
